

Guidelines for Consultation

These consultations are provided with the intention of helping participants become trauma-informed and implement trauma-informed and trauma-specific practices within their professional roles. This differs from clinical supervision in that this consultation centres around implementation of trauma specific practice.

Required Reading

ATTCH Clinical Manual

Consultation Attendance

As this space is being reserved for you and participation is anticipated participants agree to make a commitment to the scheduled consults and are responsible for prioritizing consultations within their schedule. Should you not be able to attend payment for the session is still required as the time and space has been held in the consultant's schedule.

My signature below confirms that I have read, understand, and agree to the above consultation agreement.
